

Comparing Coral Reefs

Do all coral reefs look the same? Let's all take a look and see what similarities and differences you can spot between two coral reef habitats at the Aquarium.

1. Using our live webcams, visit our two Coral Reef habitats: Coral Predators and Tropical Reef (www.aquariumofpacific.org/exhibits/webcams)
2. Compare the two exhibits and draw or write your observations in the table below, or recreate the table on scratch paper at home!

Tropical Fish- Coral Predators	Tropical Reef

After exploring these two habitats, what questions do you have about coral reefs? As a scientist, how might you find the answers?
